Claims 55-91 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-54 of U.S. Patent No. 6,681,753. Although the conflicting claims are not identical, they are not patentably distinct from each other because the application claim(s) is merely broader than the patent claim(s). Once an applicant has received a patent for a specific embodiment, he is not entitled to a patent for a generic or broader invention; the more specific anticipates the broader. *In re Goodman*, 29 USPQ 2d 2010 (Fed. Cir. 1993).

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Claims 62, 63, & 79-91 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 62, there is no antecedent for the "elongate member".

In claim 79, line 3, there is no antecedent for the "mounting bracket".

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 79, 81, 86, & 91 are rejected under 35 U.S.C. 102(b) as being anticipated by Sartain 5,632,263.

Sartain shows an arrow rest including mounting member 2; and an arrow rest 8 movable between a resting position and second position, by means of a cable connected between a bow cable and shaft 1. The center of the arrow rest has a V shape, which would tend to prevent the arrow shaft from falling off when the arrow rest is in the resting position.
